the Administration.

(Special to The Evening World.)
WASHINGTON, Jan. 21.—The Hawaiian ball was opened in the Senate this mornball was opened in the Senate this morning by the presentation by Senator Lodge of a resolution approving the sending of a warship to Honolulu, advising its retention there, advocating legislation looking to the construction of scable from San Francisco to Honolulu, deprecating any legislation waiving the treaty rights of the United States in contravention of the landing of a foreign cable in the Hawaiian Islands and favoring their annexation to the United States.

Under objection from Senator Blackburn the resolution went over, under the rules.

The Frye resolution, offered Saturday, came up as unfinished business. Senator Gray replied to the remarks of Senator Lodge, made Saturday.

"The Government was under no shigations," concluded Senator Gray. "The Government was under no shigations," concluded Senator Gray. "To accept Admiral Walker's opinion that a vessel should be sent to Honolulu. Admiral Walker' sole ground for desiring an American vessel at Honolulu was to offset British influence." Senator Chandler asked why the Philadelphia was taken away from Honolulu so peremptorily.

"If the Senator from New Hampshirs," replied Senator Gray, "will hie himself some fine morning to the White House, ask for the President, and ply him with these questions, he will probably get the desired information. The President has acted with wisdom and discretion and has been unmoved by popular clamor. He has been absolutely guided by considerations of public interest."

"Why then," asked Senator Hawley. ing by the presentation by Senator

popular clamor. He has been absolutely guided by considerations of public interact."

"Why then," asked Senator Hawley, "did he confer with three conspiring royalist emissaries last August?"

"The Senator from Conhectiout ean not dissociate himself from its arroundings," replied Senator Gray, "He totally misrepresents the Fresident."

"The attitude of this Administration," said Senator Gray, in relation to Hawley, and Senator Gray, in relation to Hawley, its in acord with American precedents for a hundred years. To have done what the Senator from Massachusetts desired, would have been too swift an interference with an independent in Brooklyn, the contest there between labor and capital.

"There is not a syllable of evidence that the Administration has made light of the situation in the "Hawaiian Islands."

Senator Lodge interjected a reference to the President's interview published this morning as a corroboration of his assertion that the President made light of the situation.

Senator Frye stated that he was informed that Minister Willis had twice advised the sending of a warship to the Senator from Delaware with extracts from Admiral Walker's report, and he retorted ably from the same document.

Senator Frye gave notice that he would call up the Hawaiian resolution to morrow morning.

"Let it go over by unanimous consent," said Senator Chandler. "Never mind," replied Senator Frye, "we will

"Let it go over by unanimous consent," said Senator Chandler, "Never mind," replied Senator Frye, "we will be strong enough to take it up without it."

## **DECISION FOR SUGAR TRUST.**

Supreme Court Says Law Don't Apply to Knight Case. WASHINGTON, Jan. 21.-The preme Court of the United States to-day endered an opinion in the Sugar Trust

case of the United States vs. E. C. and constitutionality of the Sherman ati-Trust law.

applicable to the case in hand and cor irms the opinion of the Circuit Court.

The Sherman Anti-Trust act was introduced by Senator John Sherman in 1852, and passed by the fifty-first Congress, becoming law when President Harrison signed it on July 2, 1890. It prohibits "every contract combination for the form of trust or otherwise, or conspiracy in restraint of trade or commerce."

vesterday, after the late storm. This merce.

Of this law Attorney-General Olney said, in his annual report of 1833, that there had been and probably still was, a widespread impression that its aim and effect was to prohibit and prevent trusts, and that the ground for this belief is small. While counsel for the Whiskey Trust, in its prosecution by Attorney-General Miller, under the provision of the Sherman Anti-Trust act, Mr. Olney said that the act "is not within the power of Congress, and is unconstitutional and void."

In an interview on Jan. ? 1894, Senator Sherman said: "Mr. Olney has not given the law a fair construction. I would say furthermore that it is plain from his statement that he does not care to carry out the law."

nooga, Tenn. It was because of James's unavoidable absence from the city two weeks ago that Col. James, representing Russii Sage, obtained an adjournment.

Col. James said that the witness James had not been put on the stand at the former trials of the case, and that his testimony was of the utmost importance to his client.

James, it is claimed, was present in Sage's office when Norcross threw his bomb, and was an eye-witness to all that occurred.

Inspector McLaughlin testified to the condition of Russell Sage's office after the explosion. While inspector McLaughlin was on the stand Mr. Choate askel if he had any dealings with Mr. Sage.

'Inspector," said he, "did you ever have any puts, calls or straddles with him?"

"No, sir," answered the Inspector.

Mr. Choate calmed that Col. James was delaying the progress of the trial and consuming time in the examination of witnesses whose testimony was not material or of any importance.

Judge Patterson seemed determined to end the trial to-day. He remarked that he would sit until 10 o'clock to-night if necessary.

The case was then adjourned until to-morrow.

### AFTER STRONG AND DEPEW.

cise, Passes and "Slurs."

The Methodist Episcopal preachers meeting this morning in the chapel of the Metholist Book Concern, 150 Fifth avenue, developed into a very exciting ession, as had been expected.

The excitement was over a discussion of Mayor Strong's attitude on the liquo Carlisle appeared this morning before question. There was some interest, too just previous to that over the repor relation to two items in the Sundry Civil of the Committe which was appointed to see Chauncey M. Depew on the rail way pass question.

The saloon question, however, was the one which overshadowed everything else nunciatory expressions against Mayor Strong. A committee will wait upon the Mayor and report at next week's meet-

President Palmer called upon Dr. Baldwin for the report of the Commit tee which called upon Chauncey M. Depew, of the New York Central way, in regard to the "slurs" cr to him on the "pastoral ticket"

way, in regard to the "slurs" credited to him on the "pastoral ticket" question.

"Did you ask concerning our pastoral invisit to Dr. Depew?" began Dr. Baidwin. There was a laugh, and then he continued to make an oral report.

"We were very kindly and cordially received by Dr. Depew, and the first world he greeted us with were: I hope you gentlemen give me credit for not being such a fool as to ruin, in a few minutes' talk to a reporter, a reputation of thirty years.

Then Dr. Depew explained that it was not the ministers who had misused the passes. He did not know of one case of that kind. The companies themselves had misused the arrangement, and had sold elerical tickets to any one in order to cut rates.

President Palmer indorsed the report, and added that Dr. Depew had been kind enough to introduce the Committee to Mr. Vanderbilt Dr. Palmer announced that the General Passenger Association was now considering the advisability of following the example of the New York Central on all roads east of Pittsburg, He hoped this would not be done, and thought that all ministers should use what influence they could in a dignified way against it.

thought that all ministers should use what influence they could in a dignified way against it.

The pass matter was then dropped, and President Palmer called for a report from the Chairman of the Special Committee appointed at the last meeting to consider what action to take concerning the opening of the saloons on Sunday, as threatened by the reported attitude and utterances of Mayor Strong.

Dr. Inglehart stated that the Committee had come to the conclusion that the best way in which to fight the opening of saloons on Sunday in this city would be to strongly petition the Legislature and actively work with the members at Albany. The Committee had prepared a petition to the Legislature which was to be signed by the easter and Church Board of each church, and the separate petitions from each church sent in to the Legislature. The petition simply urges the Legislature not to pass any law to allow any saloon to be open at any hour on Sunday.

Dr. Payne sald he felt humiliated at the action of Mayor Strong. In parleying with saloon-keepers the Mayor had been guilty of more than unpardonable blumler Mayor Strong was now arraigned as a betrayer of the sacred trust imposed in him by the best people of the city.
